

Kamikaze Boulders

Pauls Valley Mundaring

Access

The road to access the Kamikaze area is Quicke Road Paulls Valley. Depending on which way you are travelling on Mundaring Weir Road turn left or right into Asher Road. After 500 metres turn right into Quicke road. It is a dirt road and is barely sign posted. Drive down Quicke road trending right for 1km. If you have a 4x4 or a higher clearance vehicle turn right. If in a normal car park on the right hand side where the road has a large V in it. For 4X4's turn right on well travelled track heading slightly down hill and trending left for approximately 1.5km till you reach a tee junction which is the Munda Biddy trail. Turn left and after about 15 metres park on the right side of the track where there is a small clearing.

The easiest problems to access are on the Drop The Clutch and Key Grip boulders. Head NW (on road) up hill trending right for approx. 700 metres. Boulders A and B can be clearly seen on the right hand side of the track. All the other boulders can be found easiest by heading East down hill from boulders A and B for approx. 300 metres.

The boulders see morning sun with a fair bit of shade to be found for most of the problems. You can still have a good session in summer but there are a few ticks but not as many as some other spots. Like most of the climbing in Perth the best time to throw down is winter. Most of the projects to be had are in the moderate range with a few hard ones left to be added. If you send any new problems please let me(JAY) know at one of the gyms as I would be psyched to hear of any sends. Or hit up the C.A.W.A site and leave a post or something like that. Please keep the area clean and free of rubbish including finger tape.
